CERTIFICATIONS

EXPERIENCE

PROJECTS

iNoteBook – Full MERN Stack Web App

- Developed a note-taking web application using **MongoDB, Express.js, React.js, Node.js (MERN stack)**.
- Implemented CRUD operations: create, read, update and delete notes.
- Added user authentication with JWT for secure login/signup.
- Designed **responsive UI** with React and styled-components for smooth user experience.
- Project Link: https://inotebook-beta-sable-vercel.app

My-Blog Website – Full Stack Web App

- Built a blogging platform where users can **create, edit, and delete blog posts**.
- Used **Appwrite** as the backend for database, authentication, and storage.
- Implemented **rich-text editor** for writing blogs and file uploads for images.
- Developed **frontend with React** for responsive and interactive user interface.
