**Full-Stack Developer** | Python • Django • Django REST Framework • React

Junior Python/Django Developer | Backend & REST API Development | Full-Stack Web Development

## PROFESSIONAL SUMMARY

Motivated Full-Stack Developer with hands-on experience in Python, Django, Django REST Framework, and React. Skilled in building REST APIs, authentication systems, and full-stack applications using Django, MySQL, and modern frontend tools. Strong understanding of database modeling, deployment, and clean code practices. Seeking entry-level Python/Django or Full-Stack roles.

## SKILLS

**Programming:** Python, SQL, JavaScript (ES6+)

**Web Frameworks:** Django, Django REST Framework (DRF), React.js

**Backend Skills:** REST API development, authentication, authorization, database modeling, CRUD operations, ORM(Django ORM)

**Frontend Skills:** HTML5, CSS3, Bootstrap, Responsive UI

**Developer Tools:** Git, GitHub, VS Code, Chrome DevTools, Postman

**Deployment:** Vercel, Render, Railway

**Others:** API Integration, Fetch API, JSON

## EDUCATION

**Maulana Mazharul Haque & Arabic Persian University – Patna, India**

Bachelor of Computer Application(BCA) | 2021-2024

- Percentage : 79.96%

**Om National Academy – Birgunj, Nepal**

Higher Secondary (10+2) | 2018-2020

- CGPA: 2.99

## CERTIFICATIONS

**Python & Django Training**

**Broadways Infosys**

**20 August 2025 – 4 November 2025**

Completed hands-on training in Python programming and Django web development, focusing on backend logic, APIs, and database integration.

## ACADEMIC & TRAINING PROJECTS

**Python & Django Projects (Training-Based)**

- Built backend features using **Django** and **Django REST Framework**, including authentication and CRUD APIs.
- Designed and integrated **REST APIs** with frontend clients (React/JavaScript).
- Worked with **MySQL/PostgreSQL/SQLite**, **Django ORM**, and relational **database** design.
- Used **Git**, **GitHub**, **Postman**, and **VS Code** for development and debugging.

- Developed multiple small full-stack projects following clean code practices and MVC patterns.

## PROJECTS

### iNoteBook – Full MERN Stack Web App

- Developed a note-taking web application using **MongoDB, Express.js, React.js, Node.js (MERN stack)**.
- Implemented CRUD operations: create, read, update and delete notes.
- Added user authentication with JWT for secure login/signup.
- Designed **responsive UI** with React and styled-components for smooth user experience.
- Live Link: <https://inotebook-beta-sable-vercel.app>

### Django Feedback System – Full Stack Web Application (Django + MySQL)

- Developed a full-stack feedback system using **Django, MySQL**, and Bootstrap.
- Implemented **role-based access control**, session authentication, and custom permissions.
- Designed database schema using **Django ORM** and wrote secure form-handling logic.
- Configured **production settings**, secure cookies, `.env` variables, and deployed on **Railway**.
- Built reusable templates, static assets, and modular code following MVC architecture
- Live Link: <https://feedbackapp-production-d50a.up.railway.app>

### Chat Application – Full Stack Web App

- Built a real-time chat application using **React** and **Redux Toolkit** for the frontend and **Django + Django REST Framework** for the backend.
- Implemented **real-time messaging using WebSockets** with **Django Channels**, along with REST APIs for authentication and data handling.
- Added **JWT-based authentication**, private one-to-one chats, and persistent message history using SQLite/PostgreSQL.
- Deployed frontend on **Vercel** and backend on **Render**, handling CORS, environment variables, and production configuration
- Live Link: <https://my-chat-app-demo.vercel.app>

## Additional Information

### Available for immediate joining | Comfortable with remote or on-site roles

- Interested in Full Stack, Django, or React Development roles.
- Open to internships, entry-level positions, or freelance opportunities.
- Passionate about clean code, teamwork, and learning through real-world problem solving.
